

lesson 4

LINE ELEMENT

In the first module, create a line with the coordinates of the start point are equal to (700, 840) and the coordinates of the endpoint are equal to (300, 350).

In the second module, create a line with the following coordinates. The coordinates of the start point are equal to (10%, 50%) and the coordinates of the endpoint are equal to (70%, 10%).
